## EDUCATION

**APJ Abdul Kalam Technological University**

**2018 - 2022**
B.Tech in Electronics and Communication
Govt. College of Engineering, Kannur
**CGPA:6.4**

## TECHNICAL SKILLS

**Frontend Development**
- React.js (TypeScript) | Redux | React Query
- JavaScript (ES6+) | HTML5 | CSS3 | TailwindCSS
- Responsive UI/UX Design | Component Architecture

**Backend Development**
- Node.js | Express.js | RESTful API Design
- JWT Authentication | WebSocket | API Security

**Database & DevOps**
- MongoDB | MySQL |
- AWS Cloud Services | Git Version Control

**Additional Proficiencies**
- Python | C++ | Postman API Testing

## COURSES & CERTIFICATES

**AESTHETIX EDU-TECH, ERNAKULLAM**
Certificate Course in PYTHON FULL STACK
*2023 - 2024*

---

Full Stack Developer with hands-on experience building dynamic, user-centric web applications. Proficient in React.js, Node.js, and TypeScript, with expertise in developing responsive dashboards, e-commerce platforms, and portfolio websites. Skilled in RESTful API integration, database optimization (MongoDB, MySQL), and secure authentication (JWT). Collaborative team player.

## PROJECT

### E-commerce website
- Engineered an e-Commerce site, boosting user engagement by 20%.
- Employed React, Bootstrap, Rest-framework and python-django for a 30% faster website, improving user experience.

### Task Note App
- Frontend: Built with Vite + React and TypeScript, ensuring fast development and type-safe code.
- Backend: Powered by Express.js and MongoDB, with TypeScript for robust API logic and database interactions.

### Instagram Bot
- Backend: Node.js
- APIs/Libraries: instagram-private-api (for Instagram automation)
- Features: automated posting, analytics dashboard etc.

## EXPERIENCE

**Full Stack Developer**
**Datavalley Webservice | [4 Month] – Present**
- Rapidly mastered React.js and Node.js to deliver production-ready features for client projects
- Contributed to full development lifecycle of 3 web applications from prototyping to deployment
- Resolved 15+ critical bugs reported in production, improving system stability
- Documented APIs and component libraries, reducing onboarding time for new team members by 50%
